Field	Content
CR ID	CR-02
Date	December 29, 2025
Requested by	Lead Architect
Title	Add 'Description' Field to Module Schema
Description	The current <code>Module</code> table only has <code>name</code> , <code>code</code> , and <code>credits</code> . We need a <code>description</code> field to store the syllabus summary.
Priority	Medium
Affected CI	<code>prisma/schema.prisma</code> (Source Code)
Justification	Required to support the "Course Catalog" feature scheduled for Q2; the frontend team cannot proceed without this data field.
Analysis	Impact: Moderate. Requires a database schema migration. Effort: 30 mins (Schema update + Migration). Risk: Low (Data is currently test-only).
Decision	APPROVED
Approver	Configuration Control Board (CCB)
